

Bushwick LED ST18 Vintage Edison Bulb (E26)
LC003521

Project Name: _____

- Features a glass and brass light bulb with hand-woven, energy-efficient LED filaments in a "squirrel cage" formation
- 4W and an estimated 25,000 hours of use
- Boasts a unique ST18 shape - straight-sided with a round top and gathered tip
- On the color temperature scale, this bulb reads at 2200K. It is a soft, warm white - perfect for spaces meant to be cozy and inviting
- Standard base size of E26 - suited for most sockets
- The long LED lifespan means no maintenance - install it and leave it
