

Cara Nylon Lantern String Lights, Multicolor,
Strand of 20
LC004857

Project Name: _____

- One 16' strand featuring 20 illuminated, multicolor lanterns in orange, red, purple, blue, and teal
- Single bulb within each nylon lantern provides warm yet bright light for visibility and ambiance
- Rated IP44, this item is suitable for indoor or outdoor use, but the transformer should be protected from heavy rain
- On the color temperature scale, this item reads at 2700K. It is a soft, warm white - perfect for spaces meant to be cozy and inviting
- Connectable up to a total of 10 strands
- This item is final sale, but still carries the same warranty as any lights.com product
