

Astrid Warm White Low Voltage Rope Lights
25 ft
LC004862

Project Name: _____

- One low-voltage rope light, for a total of twenty-five feet of stunning warm white light
- Comprised of clear, flexible, soft PVC rope shielding a delicate string of copper wire dotted with 150 LEDs
- Connect up to ten strands for 250 feet of magical lighting with just a single outlet
- On the color temperature scale, this item reads at 2700K. It is a soft, warm white - perfect for spaces meant to be cozy and inviting
- Rated IP44, this item is suitable for indoor or outdoor use, but the transformer should be protected from heavy rain
