

Burton Solar Path Lights, Set of 4
LC005060

Project Name: _____

- Set of four LED solar lights in a beautiful Craftsman design and are constructed of weather-resistant metal, glass, and durable resin finished in matte black
- Easy installation; includes ground spikes and rechargeable batteries
- Each of the lights incorporates one LED that emits a warm, white light which is great for creating a relaxed and inviting feel
- Ideal for softly illuminating pathways, gardens, and patios; an excellent addition to any layered landscape lighting design
- Looks great installed in a home or commercial landscape
- We recommend matching the Burton Solar Path Lights with the complementary Elloway Solar Wall Lights
