

Ronan 24" Opal Glass LED Vanity Light, Aged Brass
 Brass
 LC005235

Project Name: _____

- Opal glass produces soft, diffused interior provides an even diffusion of light throughout the fixture preventing glare and harsh light
- Can be mounted horizontally or vertically, utilizing an invisible mounting connection with countersunk screws
- Back panel matches the finish of product, providing a beautiful reflection from any angle when mounted on a mirror
- Powered by bright, energy-efficient LEDs consuming 23 watts of energy - equivalent to a 200W incandescent bulb
- Smooth dimmability - stable, non-flickering "true to life" LEDs - provides accurate reflection of skin tone and color (90+ CRI)
- Significant amount of true white light - allowing the item to be the primary light source in the space (3000K)

Backplate Dimensions

5" x 5" x H0.8"

Certification

ETL, Damp Located

Color Temperature

3000K

Dimmable

Yes. See compatible dimmers

Filament Style & Amount of LEDs

120 LEDs

Finishing

Aged Brass

Glass Dimensions

2.36" x 22.4"
