WHAT WE PROVIDE

- 6-Button Remote Control

STEP BY STEP INSTRUCTIONS

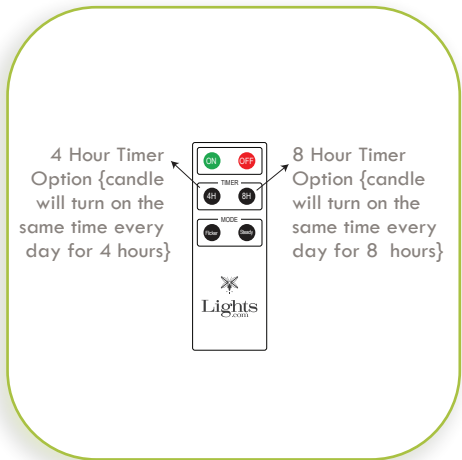

Before using your remote, remove the clear pull-tab from the battery compartment, located at the bottom of the remote.

1

ON/OFF FUNCTION

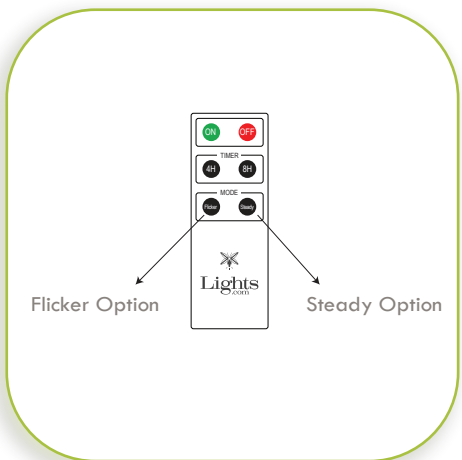

The on and off buttons are located on the top of the remote.

2

TIMER FUNCTION

The remote allows you to set an optional 4-hour or 8-hour timer. Once you have pressed the preferred timer button, your candles will turn on at the same time every day for the specified amount of time.

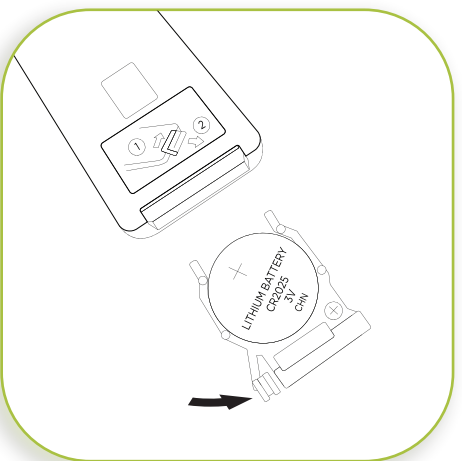

3

LIGHT SETTING

The remote allows you to choose between a steady light setting or a more realistic flickering light setting.

NOTE: If using the remote with an Infinity Wick Candle Lantern, the candle might not have this function, therefore the flicker setting may not work.

4

CHANGING THE BATTERY

This remote works with a CR2025 battery. To change the battery squeeze in the tab at the bottom of the remote, and pull out the battery slot completely. Battery should be inserted with the correct polarity as indicated (+/-) and battery compartment secured before use.
